

IFSA ENERGY & COST SAVING COMMUNITY

IFSA is partnering with the SEAI, DC6, Radius Energy and Trinity Purchasing to bring a new IFSA Energy & Cost Saving Community to members

As business costs continue to be the key factor of concern for operators in the foodservice sector, IFSA is offering a new benefit members in the form of the IFSA Energy & Cost Saving Community. Partnering with the SEAI, DC6, Radius Energy & Trinity Purchasing, the scheme will offer members cost free audits, formulation of cost saving master plans and access to significant supports via the SEAI.

This a free scheme offered to fully paid up members and engagement with the community is a hassle free and low admin way for members to save significant business costs!

Benefits

- Achieve financial and energy savings
- Improve public wellbeing and comfort from energy efficient buildings
- Boost local knowledge, skills and employment
- Build capacity and leverage funding
- Contribute to climate change targets
- Support an equitable transition to a low carbon society

Supports

- Assignment of a local SEAI mentor who will work with you and your interests/needs
- Access to dedicated SEAI funding (€10,000 - €25,000) to develop an Energy Master Plan
- Kept up to date on network activities through the community platforms, e-zine, network only groups
- Opportunities to attend regional/national training, events and webinars
- Signposts to further funding opportunities

Step One

- IFSA will register as a community with SEAI
 - i. IFSA steering committee already established
 - ii. IFSA partners will conduct individual cost saving audits with IFSA Members and the aims and interests of their business will be agreed

Step Two

- Develop an Energy Master Plan
 - i. The community steering group partners will apply for support for a master plan for your business
 - ii. Tender for master plan
 - iii. Conduct master plan

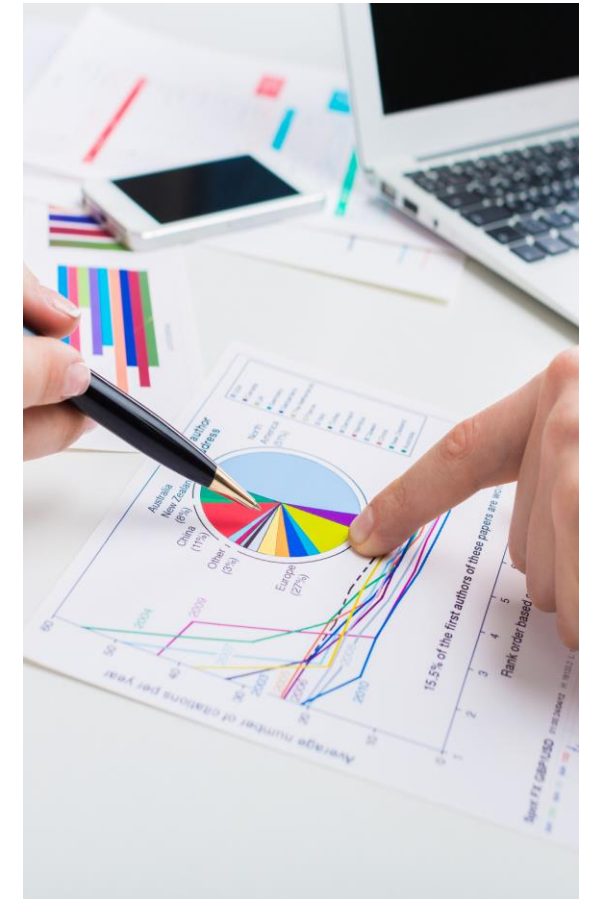

Step Three

- Adopt Register of Opportunities as path forward for collective procurement and efficiencies

Next Steps For IFSA members:

- Request an SEAI audit to be carried out by partners dcsix (€2,000 voucher provided for this by from SEAI)
- Member will then receive an individual Register of Opportunities specific to your premises
- Install monitoring if highlighted in audit report (Local Enterprise Office funding of 50% cost available)
- Have bills and energy contracts analysed by Radius Energy & Trinity Purchasing
- Progress through Register of Opportunities leveraging the following supports:
 - Better energy communities
 - SEAI for Solar (up to €162,600 available)
 - LEO
 - Green for Micro
 - One Stop Shops (OSS's)
 - SEAI RD&D if applicable
