

"We opened Leon because we wanted to prove that it was possible to serve food that both tastes good and does you good. We want to make it easy for people to eat well on the high street. We want to do this in every major city in the world."

FANTASTIC FLAVOURS FROM NATURAL INGREDIENTS

When we looked around for inspiration, we were drawn to the richness, flavours and natural healthiness of Mediterranean cooking. We base our food around the Mediterranean diet, meaning our menu focuses on fruits and vegetables, whole grains, seeds and unrefined cereals. We look to replace butter with healthier fats such as olive oil, use spices and herbs instead of salt to flavour dishes and look to encourage more chicken and fish in our diets, with a little red meat thrown in for good measure. We do also understand the need to have a treat, be it a glass of red wine or something sweet, but only as a small part of our diet.
